It does not contain any chemicals which will prevent heavy sweating. 2. Non chemical astringents or other scents It contains lemon essential oil and peppermint oil which have been scientifically proven to stimulate the nervous system and reduce the urge to sweat. Both of these are absorbed by the skin at high concentrations and as they diffuse through the air, the amount of active chemicals is reduced. Additionally, they are non-irritating which means that they will not cause the eyes to burn, the skin to burn or the nose to sting. 3. Masks which are made of cotton or silk are much less likely to irritate your skin than plastic ones Cotton and silk are absorbed quickly by the skin and keep your skin dry. Whereas plastic items do not let moisture through to the skin, they can hold in any sweat which you make. This can then mean that your face will feel wetter when you remove the mask which in turn leads to itchy skin. Additionally, plastic can scratch your face which will make you feel even more uncomfortable. These masks are great for hot weather, as they have very high levels of humidity. If you do sweat through the mask, it will allow you to dry off quickly after the mask is removed, as it is not tight and does not create a gap for moisture to escape out of. These masks are easy to use and can be washed or even dried and used again. They will keep your skin dry and comfortable, but do not create the illusion that you are not wearing any makeup. So while these masks are a quick solution to keeping your face cool during the summer months, they are not going to replace your makeup. Make sure you still take some time to apply your makeup, especially if you are going for a special occasion.

**BRITISH GUM HEAVY METAL BAND METAL MIX IN THE PERFORMANCE GENRE** Metal Mix in the Performance Genre This genre includes the most popular forms of heavy metal music. It is known for its innovative and aggressive musical style. It is popular in the UK and also in the USA. Many metal bands have been formed in this genre. Some are very famous and popular.
